4 Cities Fight PSC Ruling Favoring Arkla

LITTLE ROCK (AP) — Four cities which fought a recent Arkansas Louisiana Gas Co. rate increase asked the Public Service Commission Wednesday to reconsider the matter.

A petition filed by Pine Bluff, El Dorado, Conway and Benton cities 33 alleged errors in the PSC approval of a 77-cent increase in Arkla's minimum monthly bill which went from \$1.10 to \$1.87.

The PSC is expected to refuse the request for rehearing, which normally precedes an appeal to the courts. The cities have said they plan to take the matter to court.

Arkla put a 70-cent increase into effect last April 1 while the PSC was studying the case. The PSC on Sept. 9 gave the company a 77-cent boost, saying it was earning some \$1 million a year less than it was entitled to.

El Dorado filed an objection Wednesday to the PSC's dismissal of its request for a hearing on a protest against three escalator rate increases granted Arkla since 1958.

Ford and Union Agree, Small Issues Left

By BEN PHLEGAR

DETROIT (AP) — Individual problems at 25 local bargaining units held the key today to resumption by Ford Motor Co. following the agreement Wednesday night with the United Auto Workers Union on a new three-year national labor contract.

UAW President Walter P. Reuther said he would recommend to the union's Ford National Council this afternoon that the settlement be approved and a nationwide strike which began 10 days ago be ended.

However, strikes will continue at the 25 local units which have unresolved problems, pending a review of all issues by the international executive board tonight.

Reuther said locals with "legitimate specific problems" will be authorized by the board to continue to strike. But he expressed hope such problems would be resolved in time to permit the company to return to production by Monday.

"We'd like to get the men back to work as soon as possible," said Malcolm L. Denise, Ford vice president-labor relations who led the Ford bargaining team. "Monday would be fine with us."

In another union action Wednesday night the international board ordered a new ratification vote by Local 72 at Kenosha, Wis., on the American Motors profit-sharing contract. The 12,000-member local rejected the pact by 63 votes in a slim turnout Sunday.

The board said it could have ruled the contract ratified since a majority of all AMC workers voting had approved it. But, the board said, it was calling for the new vote, at a date not yet set, to preserve "the democratic tradition of the union."

Two final pieces of the non-economic section of the national Ford contract were settled at a four-hour bargaining session on Wednesday night.

The two sides agreed to the economic sections of the contract just prior to the strike Oct. 3. The walkout came over the non-wage sections with production standards, union representation, outside contracting and the Ford steel plant proving the major stumbling blocks.

The contract closely matches the General Motors settlement of last month.

Among other things it provides: An annual improvement factor wage increase of six cents hourly or 2 1/2 per cent for each of the three years; continuation of the cost of living allowance with 12 cents of the present 17 cent allowance added to the base wage; fully paid hospital medical insurance; an increase in minimum supplemental unemployment benefits and an extension of such payments from 26 to 52 weeks; improvements in pensions and insurance and payments for short work weeks.

Next on the UAW's bargaining calendar is Chrysler Corp. Talks have been proceeding at Chrysler since the end of June but intensive negotiation has awaited the outcome of General Motors and Ford talks.

UN Censure May Cause S. Africa to Quit

By TOM MOGE

UNITED NATIONS, N.Y. (AP) — Stung by an unprecedented censure from the General Assembly, South African Foreign Minister Eric Louw today awaited instructions from his government amid new speculation the republic may quit the United Nations.

Louw angrily charged that the censure of his policy speech by an overwhelming vote of 67-1 was part of a prearranged campaign by African nations to smear his government.

"We had been forewarned this would happen," Louw declared after a parade of African delegates denounced his speech as insulting to their governments and the African people.

African delegates were infuriated by Louw's charge that many of the African governments were attacking his government to divert attention from appalling economic conditions and illiteracy in their own countries. The Africans also resented his announcement that South Africa would continue its policy of apartheid—strict race segregation—despite the U.N.'s disapproval.

South Africa walked out of the General Assembly six years ago when its white supremacist policies were censured. It has threatened to pull out of the U.N. altogether if pushed too far.

Recalling the warning, delegates noted that this was the first time any U.N. representative had ever been censured for a speech.

The censure motion put in by Liberia labeled Louw's address "offensive, fictitious and erroneous."

South Africa cast the sole negative vote but 20 nations abstained. The United States, Britain, France and six other countries did not participate in the ballot, and three other nations were absent.

Explaining why the United States did not take part in the vote, Ambassador Adlai E. Stevenson said: "While we reject the views of the foreign minister of South Africa on the subject of apartheid and have so stated many times, we resolutely support his right—and the right of every speaker before the General Assembly—to state his views."

In the protracted U.S.-Soviet negotiations over an interim secretary-general to succeed the late Dag Hammarskjöld, the United States was studying a new Soviet compromise proposal.

The two big powers had agreed earlier that the secretary-general should have five principal advisers or deputies and that four should be named from the United States, the Soviet Union, Latin America and Asia or Africa. But the Soviet Union wanted the fifth post to go to an East European while the United States held out for a West European.

Soviet Deputy Foreign Minister Valerian A. Zorin proposed on Wednesday that six deputies be named instead of five, providing places for both a West European and East European. Stevenson said he would study the proposal.

Fallout Over Japan Serious

TOKYO (AP)—Maj. Gen. Olive K. Niess, U.S. Air Force surgeon general, said today radioactive fallout recorded in northern Japan "deserves very, very serious study."

Asked at a news conference if he would be concerned for the health of men under his command who were exposed to such fallout, Niess replied: "I would have serious concern until I knew all the facts. Of course, I am always concerned about the health of my people."

Brig. Gen. Charles Moorhouse, surgeon of the U.S. 5th Air Force in Japan, told newsmen no special directives have been issued to date dealing with protective measures for U.S. servicemen.

Japanese scientists reported Tuesday that 25,900 counts of radioactivity were recorded per minute per liter of rain water on Hokkaido, Japan's main northern island.

They said a count of 50 is normal but that Tuesday's count, the result of Soviet nuclear tests, was not considered dangerous.

Strike That Idled 44 Ships Ends

SAN FRANCISCO (AP)—A two-week deck officers strike that idled 44 ships along the West Coast has ended.

Spokesmen for the Masters, Mates and Pilots Union and for the shipowners, represented by the Pacific Maritime Association, credited U. S. Under secretary of Labor Willard Wirtz with bringing the two sides together.

Wirtz called it a compromise. Neither side seemed very happy with the settlement.

The union voted 335-252 to return to work today. The three-year contract still is subject to a referendum of the union membership.

Most of the ships idled were not expected to sail until Friday because today is Columbus Day.

Both sides agreed to negotiate further on six issues, including such key items as pension plan revisions and establishment of a mechanization fund.

The deck officers reportedly asked a 15 per cent increase and a one-year contract while the shipowners offered an 11 per cent increase in a four-year contract. Current pay and fringes range from \$14,000 to \$27,500 a year.

Spreading of work was a principal result of Wednesday's agreement. Masters will get 90 days vacation a year, an increase of 20 days. Relief crews will be hired out of union halls, instead of from smaller ships. Casual workers, who had been getting no vacation, will get five days of vacation a month.

Port relief officers and ships officers will receive \$309 an hour for night relief work in U.S. ports whether or not cargo is involved.

No other wage figures were announced.

Health and welfare payments for each man will be increased from 50 cents to \$115 per day.

198,000 Get Food

LITTLE ROCK (AP) — Welfare Department records show the number of persons receiving surplus commodities dropped to 198,000 in September, about 20,000 under the August total. The department issued 3,556,511 pounds of food worth \$996,116 to individuals in 61 counties during September.

Mr. Rayburn Seems to Be Improved

DALLAS (AP) — Speaker Sam Rayburn, ill with incurable cancer and suffering from pneumonia, appeared improved today after being unconscious much of Wednesday.

The condition of the 69-year-old political leader and lawmaker worsened Wednesday after he contracted pneumonia. He regained consciousness during the afternoon.

A mid-morning bulletin on Rayburn issued today by Dr. Robert P. Short Jr., his attending physician, said:

"Mr. Rayburn is out of coma. He is definitely improved and the major change occurred this morning. He looks and appears stronger this morning and recognizes family and associates. His temperature is normal. Pulse, blood pressure and respiration have remained unchanged since the change for the better."

Rayburn's temperature rose to 103 degrees Wednesday.

At that time, Dr. Short said the pneumonia was not caused by use of an anti-cancer drug that may prolong his life but effect no cure. The anti-cancer treatment was suspended because of the pneumonia.

Pilot Sets New Record Going Up

EDWARDS AIR FORCE BASE, Calif. (AP)—In the most dangerous X15 flight yet, a pilot set a world's record for going up—to prove this important point about coming down:

That an astronaut doesn't have to ride back to earth as a prisoner in a falling capsule—but can fly safely through the earth's atmosphere in a winged craft and land where he wishes.

Air Force Maj. Boh White Wednesday set a new world's altitude record for winged flight, 40 miles, and then made a belly-flopping reentry into the atmosphere which cracked the windshield of the rocket plane.

The plane dropped spread-eagle into the atmosphere the way a diver belly-flops into a swimming pool. The stress and friction heat would have torn a conventional plane apart.

The method spreads the heat of re-entry over a large area of the plane. Wednesday's successful flight proved techniques which may be used in re-entries on future Dyna-Soar and Apollo manned orbital flights in winged rocket craft, scientists said.

White said the windshield broke as the plane hit the thickening atmosphere at 60,000 or 70,000 feet. He said the crack, on the window glass panel of the X15's windshield, didn't interfere with his control of the plane.

The temperature on the X15's surface reached 800 degrees—300 under the maximum the X15 was designed to withstand.

White reached an altitude of 215,000 feet — more than eight miles higher than the previous X15 record, 169,600 feet. His top speed was 3,477 miles an hour, under the X15's previous record of 3,645.

Legacy Left by Late Mrs R. M. Briant

It has been announced at an official board meeting of the First Methodist Church that the late Mrs. R. M. Briant left a legacy of \$10,000 to the church at her death. The announcement was made by O. A. Graves.

It was the wish of Mrs. Briant that the money be used by the church in a way that would be determined by the Graves family with the approval of the official board. At the present time no definite plans have been made for the use of the money.

Mrs. Briant was the oldest member of the First Methodist Church in point of service at the time of her death. Her late husband was one of the leaders of the church and community during a lengthy lifetime.

Announcement was also made at the same time that Mrs. Briant had left an additional \$10,000 to Hendrix College for use by that school.

Mrs. Norrell May Oppose Harris

HOT SPRINGS, Ark. (AP) — Rep. Catherine Norrell, D-Ark., indicated Wednesday she might run for another term, even if she has to take on Rep. Oren Harris in the new 4th District.

Mrs. Norrell, in Hot Springs to address a civic club, said she definitely was interested in another term but was not ready to make an announcement at this time.

Chiropractor Sent for a Mental Test

LITTLE ROCK (AP)—Harold L. Walker, 31-year-old chiropractor charged with wounding his girlfriend and firing at the sheriff at a busy suburban intersection, was committed to the State Hospital Wednesday for a 3-day mental examination.

Walker was charged Wednesday on two counts of assault with intent to kill. One count is the wounding of Mrs. Joan Rhea, a 24-year-old divorcee, and the other covers a shot fired at Sheriff L. C. Young, a chance witness to the shooting.

Mrs. Rhea was recovering in a hospital from .38 caliber revolver wounds in the back and chest.

Young was in his car, waiting for a traffic light to change, when Mrs. Rhea ran from Walker's car crying, "Don't let him kill me."

Walker fired and Mrs. Rhea fell. Young said. He then ordered Walker to surrender. He said Walker fired at him but missed.

Walker then ran and Young fired five times, wounding the fugitive on the finger. Walker fell and surrendered meekly, Young said.

Police quoted Walker as saying he had been trying to get Mrs. Rhea to marry him and had determined to kill himself if she refused. He said he became frightened and ran when she saw the gun and he did not know why he shot at her, officers said.

Starts Nat'l Cotton Picking Contest

BLITHEVILLE, Ark. (AP) — The National Cotton Picking Contest starts today with a parade and beauty pageant.

The afternoon parade features three contenders in this year's Miss America Pageant—Frances Anderson of Pine Bluff, Miss Arkansas, who was first runner-up; Miss Missouri and Miss Tennessee.

Arkansas Atty. Gen. Frank Holt was another scheduled guest.

A queen for the 22nd annual contest will be selected tonight at the Blitheville High School auditorium. More than 20 beauties are entered from several states.

The main event — the cotton picking contest itself — is scheduled Friday. Nearly 200 pickers from a dozen cotton states are entered. The contest originally was scheduled for a week ago, but a late cotton crop caused a postponement.

Price money totals \$1,900. Last year's winner, Roy C. Peterson of East St. Louis, Ill., will defend his title.

Added starters this year are Blitheville's four candidates for mayor—Eddie Saliba, Jimmy Edwards, E. R. Jackson and Fay Austin. They don't expect to beat the pros, but the four-way contest among themselves will be torrid.

U. S. to Send Military Aid to Viet Nam

By JOHN M. HIGHTOWER

WASHINGTON (AP) — The possibility of direct U.S. military intervention in South Vietnam appeared to be sharpened today by President Kennedy's decision to send Gen. Maxwell D. Taylor on an urgent mission to assess the growing Communist threat to the Southeast Asian country.

Taylor, a top Kennedy military adviser, is scheduled to leave Sunday, make a fast survey of the increasingly dangerous situation, then give Kennedy an "educated military guess" on the size of the Communist menace and steps that could be taken to meet it. Officials said the U.S.-supported government of President Ngo Dinh Diem is coming under very heavy Red pressure.

The President announced the Taylor mission at a news conference Wednesday at which he also made clear that he will send Ambassador Llewellyn "Thompson" back to Moscow shortly to resume exploratory talks with Soviet leaders on possible settlement of the Berlin crisis.

Thompson, in addition, is expected to warn the Soviets anew of the dangers of expanding conflict in Southeast Asia and to urge that they cooperate in trying to prevent an outbreak of open warfare which could spread beyond South Vietnam.

As the President discussed the Southeast Asian and Berlin situations in response to news conference questions, the impression grew among his hearers that he is grappling with the complex and interlocking problems of crises on two fronts.

Other administration officials said his decisions on Southeast Asia when Taylor returns can hardly be made without consideration of American force commitments and possible further needs in the East-West dispute over Berlin.

The President himself gave a universal significance to the problems of war and peace in today's world by referring to the destructive potential of any conflict that leads into the use of nuclear weapons.

"Our ambition is to protect our vital interests without a war," he said. "We happen to live in the most dangerous time in the history of the human race," he added. "We move through a period of maximum hazard."

He left no doubt that he intends to use every resource of diplomacy to minimize conflict and try to find peaceful solutions for disputes with the Sino-Soviet bloc.

Berlin Crisis Still Exists, Kennedy Says

By WHITNEY SHOEMAKER

WASHINGTON (AP) — President Kennedy sees no easy or early halt to East-West collisions which have pushed mankind to, as he views it, the gravest danger point in all history.

"There still are very major differences," he says, between the Western powers and the Soviet Union.

The talks he and Secretary of State Dean Rusk have had with Soviet Foreign Minister Andrei A. Gromyko in the last few weeks have failed to produce immediate hope of achieving agreement on Berlin, Kennedy told his news conference Wednesday.

"Our ambition is to protect our vital interests without a war which destroys and doesn't really represent a victory for policy," Kennedy said. He added that Americans are rightfully concerned in this age of annihilating weapons because: "We happen to live in the most dangerous time in the history of the human race."

Other areas of conflict exist outside Germany, he said—and announced he is dispatching Gen. Maxwell D. Taylor for an on-scene survey of South Vietnam.

Taylor, the President's military adviser, leaves Sunday and will meet with Vietnamese President Ngo Dinh Diem and U.S. officials to discuss ways of helping South Vietnam cope with expanding Communist attack.

Taylor also may visit Laos and Cambodia.

A crowd of 396 newsmen and visitors attended the news conference, which also could be seen across the country via live television. It was the chief executive's 16th news conference in Washington, the first in nearly 1 1/2 months and the first opened to telecasting as it happened since March.

Kennedy, wearing his usual news conference dark blue suit and purple tie, provided a few chuckles but for the most part was solemn in tone and manner.

Declaring "we move through a period of maximum hazard," he kicked off steps his administration has taken in an effort to build up the country's nuclear and conventional forces. That buildup has dashed hope for a tax cut next year, he said. "The government still aims for a balanced budget—an aim he said is threatened only by further demands for defense spending."

Kennedy made no promise against a tax increase but said he wouldn't want to saddle the country with a tax burden that would strangle its economic resources.

Honolulu Oil Takes Jump on Market

BY ED MORSE
AP Business News Writer
NEW YORK (AP)—A jump in Honolulu Oil was a feature of a mixed stock market early this afternoon. Trading was moderate. The Associated Press average of 60 stocks at noon was unchanged at 258.70 with industrials up .20, rails off .30 and utilities unchanged.

Volume was dampened by semi-holiday conditions due to the Columbus Day observance.

Changes of most key stocks were narrow but there were a few wide moves.

Buyers swarmed into Honolulu Oil on news that a federal judge had denied the Justice Department's plea to halt this company's \$362 million assets sale. The stock soared 9 points, reaching a new high.

Some of the aircraft were higher as President Kennedy reported that he saw no hope of an easy solution of the Berlin crisis. This news was accompanied by word of reinforcement of U.S. troops in Europe.

Motors were off and steels were unchanged to lower.

The Dow Jones industrial average at noon was up .28 and 705.90.

Prices on the American Stock Exchange were mostly higher in moderate trading.

Corporate bonds were mixed. Because of the Columbus Day holiday in New York, banks and houses dealing in U.S. government bonds were closed.

Fulbright Addresses Students

ARKADELPHIA (AP)—Sen. J. William Fulbright told 600 college students Wednesday the Communists benefit from unfound charges that many Americans are subversive.

It was a reiteration of a theme Fulbright has hammered on since he started a 40-speech stumping tour of the state Monday.

The senator, who is up for reelection next year, made two speeches here Wednesday. He addressed Henderson and Ouachita Baptist College student in the afternoon at Ouachita's Mitchell Auditorium. He spoke at a Chamber of Commerce industry appreciation dinner in the evening.

At both places he followed the format he has laid down for the tour—a brief speech followed by a question and answer period.

Fulbright said allegations that America is crumbling from within are nonsense, but people in other countries take it seriously.

For business and industrial leaders, Fulbright brought word that two federal projects vital to this area—the DeGray Dam on the Caddo River and a nine-foot navigation channel on the Ouachita River—now are assured.

He said he would work to bring the nine-foot channel to Arkadelphia after it is completed to Camden as planned at present.

ONE FOR THE ROAD—Paris policemen demonstrate new television camera designed to help highway accident victims. Scene of accident is televised, with emphasis on close-ups of victims. Physician far from scene views pictures on his screen, is able to advise on treatment, or careful removal of injured.

U. S. to Send Money to Congo

UNITED NATIONS, N.Y. (AP)—Informed sources said today the United States would announce soon an additional credit of \$12.9 million for the financially hard-pressed U.N. Congo operation.

This will bring to almost \$100 million the total contributed by the United States since the Congo crisis flared in mid-1960.

The latest contribution will be in the form of needed goods and supplies, the informants said.

Thus far the United States has paid \$68,299,272 in assessments for the U.N. Congo operation, and \$17,950,000 in voluntary contributions to the economic fund.

The Soviet bloc countries, France and South Africa have announced they will not put any money into the U.N. Congo operation.

Creates think at different speeds. It may take a full second for a thought to pass from one side of a large jellyfish to the other. But a nerve impulse races through the brain of a cat at the equivalent of more than 100 yards a second.

Teacher Retirement Investment

LITTLE ROCK (AP)—The state Teacher Retirement System board voted Wednesday to invest up to \$500,000 in corporate bonds with minimum interest rates of 45 per cent.

The investments will be made under a 1961 law which removed a prohibition against buying such bonds with retirement funds.

In the past, the board has placed the bulk of its money in school district, state college and university bonds and short-term treasury notes. It apparently intends to continue that practice since it bought \$24 million worth of school district bonds at 38 1/2 per cent interest Wednesday.

Earlier this year, however, early \$2 million has placed in Federal Housing Administration mortgage loans yielding at least 52 1/2 per cent.

Hoyle R. Pyle, director of the retirement system, said investments with a higher rate of return were needed since the 1961 Legislature reduced the state's annual contribution to the retirement fund.

Pyle said the system has \$45,996,359 on its books with \$39,718,046 invested and the remainder in reserve.

A. G. Gabriel, a Detroit actuary told the board Wednesday that the retirement system's annual income now is \$2 million under what he regarded as ideal Gabriel recommended an annual state contribution of about \$6 million to the 1961 Legislature but the figure finally was pegged at \$37 million this year and \$39 million next year.

Chico Marx, 70, Dies in Hollywood

HOLLYWOOD (AP)—Leonard Marx, a tailor's son who wanted to be a businessman but instead became Chico of the Marx brothers comedy team, is dead at 70.

Chico, oldest member of the impossibly irreverent brothers whose vaudeville and movie fans included low-brows and intellectuals alike, died of a heart ailment Wednesday. He had been ill for several months.

Chico and brothers Groucho (Julius), Harpo (Arthur), Zeppo (Herbert) and Gummo (Milton) transformed low comedy into high art for three decades—with their special brand of winks, whistles and wisecracks.

Their last movie was in 1949, entitled "Love Happy," and the cast included an obscure blonde actress, Marilyn Monroe, in her first film.

Gummo and Zeppo entered private business years ago. Chico, who loved gambling, cards and golf, lived quietly in recent years.

Only Groucho, 66, is still an active performer. Harpo recently regained some prominence with "Harpo Speaks," an autobiography.

Episcopal Diocese Bishop Installed

MEMPHIS (AP)—Richly robed clergymen gathered today to officially install Bishop John Vander Horst as the seventh bishop in the history of the Episcopal Diocese of Tennessee.

Bishop Henry I. Loutitt of South Florida flew here to preside over the colorful pagentry at St. Mary's Cathedral.

Bishop Vander Horst automatically succeeded Bishop Theodore N. Barth, who died last Aug. 22 of cancer.

Debate on Over Grain Feed Plan

WASHINGTON (AP)—A debate is on over the effectiveness of a Kennedy administration program to reduce costly livestock feed grain surpluses.

The administration—accepting figures of this week's crop report as conclusive—claims the program is a success. Not so, says a leader of the American Farm Bureau Federation, who labeled the claim "ridiculous" and "a sort of Alice in Wonderland type of thinking."

Under the program, the government will pay farmers about \$700 million for reducing acreages of corn and sorghum grain about 19 per cent this year. In addition, it offers participating farmers price supports about 13 per cent higher than last year.

The official crop report estimated production of these two grains was down 11 per cent from last year.

Speaking out for the program—

which has considerable opposition in Congress and some farm groups—Undersecretary of Agriculture Charles S. Murphy estimated production of corn and sorghum grain would have been nearly 23 per cent larger without the program. President Charles B. Shuman of the American Farm Bureau Federation said in a statement that Murphy's estimate of what production might have been was a "ridiculous assumption." Shuman, whose organization opposed legislation authorizing the program, said it was his guess that production would have about the same as reported, if not less. "My guess is just as good as Murphy's," Shuman said.

Night Meetings Are Ruled Out

MEMPHIS (AP)—The School Board has ruled out any night meetings during October at four schools here that recently admitted Negro students in a move that ended a century of rigid segregation in education.

Lee Thompson, director of administrative services for the board, said the decision was based on

Smokey Says:

MY FRIENDS AND I WELCOME YOU TO AMERICA'S GREAT OUTDOORS!

and thank you for being careful with fire!

(the additional difficulties such meetings might pose for police guarding the schools at night.)

Germany Draft at 18 Months

BONN, Germany (AP)—Defense Minister Franz Josef Strauss said today the two parties expected to form West Germany's new government have agreed to lengthen the period of service for draftees in the armed forces.

Strauss said this probably meant that starting next year draftees in the army, navy and air force would serve 18 months instead of the present 12. He said agreement had been reached on an extension but there remained some slight doubt about just how much.

The defense minister told a meeting of fellow Christian Democratic Bundestag (Parliament) members that Chancellor Konrad Adenauer and the Free Democratic party chairman, Erich Mende, decided on the longer service in their negotiations for a new coalition government.

Sunday, Oct. 15 at 3, Guest churches: Haynes Chapel, Mt. Olive, Sweet Home and Garretts Chapel. Guest minister, Rev. J. D. Dempsey and Rev. F. R. Williams. Sponsored by trustees and brotherhood club. Sermon by Rev. Dempsey.

Communists World Also Has Problem

(EDITOR'S NOTE - Soviet policy under Nikita Khrushchev appears to be riding high, but the Communist chief has plenty of headaches, at home and in the world. Communist camp outside the U.S.S.R. Some of these problems are likely to become evident during the 22nd Soviet Communist party congress which opens in Moscow next week. In the following article, AP News Analyst William L. Ryan outlines some of the problems and gives some of the background on what the congress is.)

By WILLIAM L. RYAN
Associated Press News Analyst

The Soviet Communist party opens its 22nd congress Tuesday. Intensive propaganda promises it will mark the beginning of a march to Communist world supremacy. To dramatize Communist prospects, the Kremlin may even time a new spectacular space shot for the congress opening.

Despite the showmanship, there are in the background suspicious signs of nervous strain in Soviet party and world Communist ranks. Premier Khrushchev, first secretary and party chief, promises the congress will be a turning point. It will consider a 20-year program to build the "base" of communism. Theoretically, the U.S.S.R. has built "socialism." Communism, implying promise of abundance, is many years away.

Party congresses in their 63 years of history often have been billed as momentous turning points. Many have cloaked internal struggles. In recent years congresses provided—as the 22nd will—platforms to consider problems and strategy.

What is the party congress? The congress supposedly is the party's ruling body, to which the central committee and its direct-presidium are responsible. Required to meet once every three years, it is made up of functionaries from major political subdivisions of the U.S.S.R. It is supposed to hear and pass on programs of the central committee and party presidium, amend programs and statutes, fix tactical lines on fundamental policy questions and elect various party leaders.

Actually it does none of this, instead merely approves the automatic stamp of approval. The congress is window-dressing for a claim to democracy. Under Stalin the dictator's hand-picked politburo was the law. Under Khrushchev, the key body appears to be the central committee, where his own political machine has been strong enough to outmaneuver his enemies in the past.

The 20th congress in 1956 rocked world communism. Khrushchev, by then clearly the boss, denounced the dead Stalin as a murderer and egomaniac.

Early in 1959, with a Berlin crisis fading away, the 21st congress ostensibly was concerned with approving a seven-year economic plan. Actually it cloaked a world strategy meeting. By then the problem of the bumpy Red Chinese was much in evidence. Despite Chinese resistance, the congress was forerunner of the intense peace offensive that brought Khrushchev to the United States for a visit to President Eisenhower.

Since then Khrushchev has turned truculent again—perhaps because of pressure, perhaps even because his leadership was at stake. He turned back to the brink of war policy practiced by Stalin in attempts to push communism forward by violent aggressiveness.

Khrushchev had stood for the notion that the U.S.S.R. could so build its economy that its political and economic drives would make communism invincible in the world without the risk of nuclear war. It was a cautious policy.

But while a half dozen years of supremacy by Khrushchev made headway for communism with the economic and political infiltration in many areas, Soviet Communists added no new slices of real estate to the empire. Indeed, in some respects, they experienced losses.

For hard-shell Stalinists, the world revolution moved too slowly. Communists were set back in the Middle East, notably in Iraq. Moscow quarreled with Gamal Abdel Nasser, spokesman for Arab nationalism. Communism was hesitant about pushing ahead in India. It was plagued by ideological bickering with Yugoslav Communists on one hand and Chinese on the other. It made no headway in economically flourishing Europe. It gained Cuba, but that was dumped in its lap and was not by means reliable or secure.

Inside the Communist world there were political and economic strains. Attempts to integrate European Red bloc economies to do so.

SPLENDOR THAT WAS ROME—Two of the handmaidens of Venus, goddess of love, dance again on recently uncovered pavements of the Temple of Venus at the ancient Roman city of Volubilis in Morocco. The city was once an important outpost of Rome in North Africa. The colors of the stone tiles appear as fresh as the day they were put in position, providing an attraction for today's tourists.

HISTORY IN MOSAIC—A workman cleans up a recently discovered mosaic floor at the ancient Roman city of Volubilis, near Meknes, Morocco. Long a site for archeological research, the ruins are a tourist attraction as well. Depicted above is some of the wildlife that was abundant during Roman times. With the drying up of the country in the last 1,500 years, most have vanished from the countryside.

10,000 More U. S. Troops to Europe

By ELTON C. FAY

WASHINGTON (AP)—An additional 10,000 air and ground troops have been ordered to Europe to bolster the Allied garrison manning the line between West Germany and the Communist East.

They are in addition to the 40,000 Army troops beginning to deploy abroad in the first phase of a program to increase conventional war capability against possible Red aggression. By year's end, U.S. forces in Europe will total about 300,000.

About half the 10,000 are Army men, the other half Air National Guardsmen.

The Pentagon said Wednesday that the 3rd Armored Cavalry Regiment, with a strength of about 3,000 men, would go overseas at an early date. Another 2,000 soldiers also will be sent to handle and guard weapons and equipment being stored against the possibility that full-sized Army divisions might go later.

Eleven fighter squadrons of federalized Air National Guard units, with a total manpower of about 5,000 pilots and support personnel, will start heading overseas Nov. 1.

The ground and air units will be added to five Army divisions, elements equalling another division, and 17 tactical air squadrons now in West Germany and France.

Both the ground and air units in this new augmentation are equipped and trained for conventional warfare.

Can Retain Fines

LITTLE ROCK (AP) — Atty Gen Frank Holt ruled Wednesday that the adjoining Lawrence County cities of Hoxie and Walnut Ridge can retain fines and costs collected in their respective courts. Walnut Ridge has a municipal court and Hoxie a mayor's court and S. L. Richardson, who is city attorney for both towns, raised the question of whether the municipal court had jurisdiction over fines collected in both courts.

brought problems to individual Communist governments. There were strains in the U.S.S.R. itself. Party propaganda makes no bones about the fact that "building communism" will mean many more years of labor for a people impatient to share in riches now poured into heavy industry to build world power.

All in all, Khrushchev goes to the congress with a raft of troubles. Signs indicate he can ride them out, but in all likelihood he will have to make compromise to do so.

Had Trouble Waking Up

HYATTSVILLE, Md. (AP) —

Allie Lumbert Brown has trouble waking up. This worried him, for he had a 7 a.m. appointment at the draft board to take a physical.

Draft boards have a reputation of being stuffy about people who aren't on time. What to do?

Brown had it—sleep all night in jail. When he presented himself at the jail Sunday night, the police said he couldn't sleep there unless he had been arrested.

So Brown did the next best thing. He curled up on the draft board's door step.

A policeman came along, charged him with being drunk and hauled him off to jail.

Brown was up at 7 a.m. all right. But it took him until 4 p.m. to go before a judge and convince him that he hadn't been drunk—just conscientious.

The draft board said it would give Brown another chance. This time he plans to try it from home.

Has 19th Child, Foresees More

HARRISBURG, Pa. (AP)—"It just happened that way, and if God wills it we'll have more."

That was the reaction Tuesday night of Mary Grab, 44, Harrisburg housewife who last week gave birth to her 19th child.

The newest addition is James Mario, 10 pounds, 13 ounces.

Both baby and mother are reported "doing just fine" at Harrisburg's Osteopathic Hospital and should be able to return home Saturday.

Mrs. Grab's husband, Bob, 45, an electrician for the Pennsylvania Railroad, looks on the size of his family with the same philosophy as his wife.

"We didn't plan to have such a large family," he commented, "but we're sure happy things turned out the way they did."

The other Grab children range in age from Edward Leo, 19 months to Robert William, 21. The Grabs themselves have been married for 22 years.

Gin Made the Telephone Dead

PILSWORTH, England (AP) —

Fallout Up But No Health Problem Yet

By W. JOYNES MACFARLAN

WASHINGTON (AP) — Fallout from Soviet nuclear tests has introduced radioactive iodine 131 into fresh food supplies in many areas in the southeastern United States and probably throughout the eastern half of the country, the Public Health Service announced today.

"However, present fallout does not warrant undue public concern, nor initiation of public action designed to limit the intake of radioactive substances," Surgeon General Luther L. Terry said.

The service said its announcement was based on analysis of milk in six cities—New Orleans, La.; Atlanta, Ga.; Charleston, S.C.; Jackson, Miss.; Tampa, Fla., and St. Louis, Mo.

The Soviet Union resumed nuclear testing Sept. 1. Since then, according to President Kennedy's disclosure Wednesday at a news conference, the Soviet Union has fired more than 20 nuclear explosions into the atmosphere.

Iodine is a source of potential concern because physicians say extensive overdoses might result in cancer or other injury to the thyroid.

Three weeks ago, the top-level Federal Radiation Council cut sharply its recommended maximum safe limit on the intake of radioactive iodine 131. The cut was recommended particularly for the protection of children.

Under the old standard, a daily intake of up to approximately 1,300 micro-microcuries was considered acceptable. A micro-microcurie is a measure of radioactivity.

Under the council's new recommendations, a range beginning as low as 100 micro-microcuries a day for a year is indicated as a possible danger point that would require the most stringent kinds of control. The council stressed the hazard to small children of concentrations of iodine 131 in their diets, particularly in milk.

In the period Sept. 20-29, the health service said, the highest iodine measurements for each of the six cities were:

New Orleans, 530 micro-microcuries per litre (1.056 quarts) in milk collected on Sept. 25; Atlanta, 320, Sept. 25; Charleston, 270, Sept. 22; Jackson, Miss., 460, Sept. 27; Tampa, 140, Sept. 22, and St. Louis, 500, Sept. 27.

Ike Sends Mr. Sam a Message

DALLAS, Tex. (AP) — Ailing Sam Rayburn received this message Tuesday from former President Dwight D. Eisenhower:

"Dear Mr. Sam: I am sure you will agree that I've known my share of tough and sturdy men. On the knowledge thus gained, I predict that the rugged Sam Rayburn is going to come out of this illness with colors flying. Next January I shall, by television, see you in your accustomed place on the rostrum when the president delivers his State of the Union message, a completely recovered native Texan rapping for order."

"With the warm regard of your 'vicarious' constituent, 'Captain Ike'."

A Rayburn aide said the speaker referred to Eisenhower as "Captain Ike" in Eisenhower's early Army days, and called him his "vicarious constituent" because Eisenhower was born in Rayburn's congressional district.

gin bottle, upended for quick measured service, hanging above the phone.

During the pub's trading hours, they found, drips from the bottle were falling on the phone. The gin was seeping into the mechanism, putting it out of action.

By morning the gin in the phone had evaporated and the mechanism worked again.

Payne has moved the phone to a dry spot.

'Lifeless' Says Broyles of the Razorbacks

FAYETTEVILLE, Ark. (AP) — The weary Arkansas Razorbacks scheduled a tapering off drill today after three long, hard days of getting ready for Baylor.

Coach Frank Broyles wasn't satisfied that they are ready for the Saturday night game in Waco, Tex.

"They haven't been so lifeless and nonchalant since the end of two-day drills in September," Broyles said. "We don't seem to have enough boys who want to play football."

Most of this week's work has been on defense against Baylor's pro-style attacks which features the passing of Ronnie Stanley and Bobby Ply and the running of Ronnie Bull, Ronnie Goodwin and Tommy Minter.

Asst. Coach Jim McKenzie worked hard Wednesday with the ends and linebackers. "They've got a big job," he said. "Baylor averages running 80 plays a game."

The Porkers worked sparingly on offense, which left little to be desired in last week's 28-3 rout of Texas Christian.

Baylor hasn't played since Sept. 23 when the Bears beat Pittsburgh 16-13. They also own a 31-0 conquest of Wake Forest.

The Bears beat Arkansas 28-14 last year in the Razorbacks' only league defeat in a Southwest Conference championship year.

Coach Frank Broyles of Arkansas finds his football team to "nonchalant and lifeless." The implication is that it's complacent overconfidence in plain English.

Coach John Bridgers of Baylor isn't trying to help Broyles' situation when he confides to his team before it meets Arkansas in the Southwest Conference feature game of the week:

"We are facing the trickiest, swiftest and most dangerous offense we have seen."

Bridgers is absolutely enthusiastic about this Arkansas outfit which he says "can strike from any position and for any distance by land and by air and any team that makes a defensive mistake against them is going to see the score board light up."

And Arkansas lets it be known that it admires Baylor very much, too. Wednesday the Razorbacks did a lot of work in brushing up their defense. Assistant Coach Jim McKenzie said the ends and linebackers had a great responsibility: "Baylor runs 80 plays a game," he warned.

Most of the other coaches were critical of their teams, too.

Darrell Royal said at Texas that "we had our worst workout all fall." He commented on the lack of enthusiasm and the only bright spot he could find in the whole situation was that backfield star Jack Collins had recovered from a knee injury.

Coach Abe Martin of Texas Christian was gloomy because he had so many boys on the injury list "we couldn't have any fun scrimmaging or even hitting in individual drills."

Texas Christian plays Texas Tech at Lubbock Saturday night and at Tech Coach J. T. King was trying to get his air game in better shape. He pointed to the fact that Tech played Texas A&M yard for yard on the ground last week but lost the game in the air "A&M connected on 12 passes and we managed only four," he observed.

Coach Jim Myers of A&M also had visions of the ball going down through the air in abundance. "I guard, Bobby Hunt, to the injury expect an aerial circus when we play Trinity Saturday night," he said.

Rice, which plays Florida at game with Rice next week

Fishing Around Arkansas Lakes

LITTLE ROCK (AP) — Here is a fishing forecast from the Arkansas Game and Fish Commission:

Lake Maumelle: Water clear and two feet low. All fishing fair on all bait.

Lake Conway: Water clear and 4.4 feet low on drawdown. Bass fair to good on artificial bait and minnows. Bream fair on crickets and worms.

Lake Hamilton: Water conditions good. Bass fair to good on artificial bait. Bream fair on crickets and worms.

Lake Ouachita: All fishing fair on all bait.

Lake Bull Shoals: Water clear and normal. White bass fair on spoons. Black bass fair at night on jigs, eels and plastic worms.

Lake Greason: Bass good on artificial lures.

Lake Norfolk: Black bass good on crayfish, fair to good on plastic worms.

Lake Catherine: Water conditions good. Bass fair on artificial bait.

Lake Hamilton: All fishing fair on all bait.

Lake Bull Shoals: Water clear and normal. White bass fair on spoons. Black bass fair at night on jigs, eels and plastic worms.

Lake Greason: Bass good on artificial lures.

Lake Norfolk: Black bass good on crayfish, fair to good on plastic worms.

Lake Catherine: Water conditions good. Bass fair on artificial bait.

Lake Hamilton: All fishing fair on all bait.

Lake Bull Shoals: Water clear and normal. White bass fair on spoons. Black bass fair at night on jigs, eels and plastic worms.

Lake Greason: Bass good on artificial lures.

Lake Norfolk: Black bass good on crayfish, fair to good on plastic worms.

Lake Catherine: Water conditions good. Bass fair on artificial bait.

Lake Hamilton: All fishing fair on all bait.

Lake Bull Shoals: Water clear and normal. White bass fair on spoons. Black bass fair at night on jigs, eels and plastic worms.

Lake Greason: Bass good on artificial lures.

Lake Norfolk: Black bass good on crayfish, fair to good on plastic worms.

Lake Catherine: Water conditions good. Bass fair on artificial bait.

Lake Hamilton: All fishing fair on all bait.

Lake Bull Shoals: Water clear and normal. White bass fair on spoons. Black bass fair at night on jigs, eels and plastic worms.

Lake Greason: Bass good on artificial lures.

Lake Norfolk: Black bass good on crayfish, fair to good on plastic worms.

Lake Catherine: Water conditions good. Bass fair on artificial bait.

Lake Hamilton: All fishing fair on all bait.

Lake Bull Shoals: Water clear and normal. White bass fair on spoons. Black bass fair at night on jigs, eels and plastic worms.

Lake Greason: Bass good on artificial lures.

Lake Norfolk: Black bass good on crayfish, fair to good on plastic worms.

Lake Catherine: Water conditions good. Bass fair on artificial bait.

Lake Hamilton: All fishing fair on all bait.

Lake Bull Shoals: Water clear and normal. White bass fair on spoons. Black bass fair at night on jigs, eels and plastic worms.

Lake Greason: Bass good on artificial lures.

Lake Norfolk: Black bass good on crayfish, fair to good on plastic worms.

Lake Catherine: Water conditions good. Bass fair on artificial bait.

Lake Hamilton: All fishing fair on all bait.

Lighter Side of Life in the World

The Lighter Side

BY DICK WEST

United Press International

WASHINGTON (UPI) — Several months ago, in a rash moment that I was shortly to regret, I let myself be conned into attending a style show.

Feeling that I should do something more constructive than just ogling the models, I made some notes which I later put together into a kind of dictum, to wit:

Women will wear anything as long as it is fashionable.

It was a good thing that some of the ladies who read my opus were not in kicking distance. With those pointy-toed shoes they wear nowadays, I might have started a new fashion — perforated hip pockets.

Probably the only thing that saved me was the fact that women now wear skirts so tight they are unable to kick anyone above the ankles.

As it was, the dear creatures had to content with writing letters demanding my blood.

Read Fashion Book

Faced with such an outpouring, which almost wiped out the postal deficit, I did what any red-blooded American boy would do. I took off my double-breasted jacket with the wide lapels and retired from the fashion writing field.

It was this experience that caused me to read with a great deal of interest an account of a visit here this week by a New York fashion expert named Eve Merriam.

Eve is the author of a new book entitled — you should pardon the expression — "Figleaf."

What she had to say about Common 14-17.

fashions warmed not only the cockles of my heart but my giz-god to choice 185-230 lb. 16.50-zard as well. This is one eve who will 17.50, 240 and up 17-17.35.

can recognize a bad apple.

Sheep steady. Choice to prime 13.50-13.50.

Miss Merriam said that fashion fashions 15. Medium 13.50-13.50.

When to Fish or Hunt Solunar Tables

By John Alden Knight

The schedule of Solunar period as printed below, has been taken from John Alden Knight's Solunar Tables. Plan your days so that you will be fishing in good territory or hunting in good cover during these times, if you wish to find the best sport that each day has to offer.

The major periods are shown in bold face type. These begin at the time shown and last for an hour and a half or two hours thereafter. The minor periods, shown in regular type, are of somewhat shorter duration.

Minor Major Minor Major

Thurs. 7:05 12:55 7:35 1:20

Fri. 7:50 1:40 8:25 2:10

Sat. 8:40 2:30 9:15 3:00

Sun. 9:30 3:20 10:05 3:50

is "the most dreadful of all adictions" and is causing women to lose their femininity. Hear!

I could never see anything very feminine about pointed feet. I hear arguments on the defense motion Jan. 4.

Rees, 32, a Hyattsville, Md., dance band musician, who was arrested last year at West Memphis, Ark., was convicted Sept. 20 at the end of a nine-day trial for the murder of Carroll V. Jackson Jr. in early 1959. Police also accuse Rees of the kidnap-slays of Jackson's wife and two daughters.

Rees is also under federal sentence to life prison terms for the kidnap-murders of Jackson's wife and older daughter, and Prince Georges County, Md., wants to try him on charges of slaying two teenage girls there in 1955.

Hendrix Ceremony

CONWAY, Ark. (AP)—Hendrix College dedicated its new Grove Physical Education Building Wednesday in a ceremony attended by 1,500 persons. The building was named in honor of Ivan H. Grove, teacher, coach and athletic director at the college for 35 years.

Tigers Start Looking Like Grid Team

This week the Yerger Tigers travel to Texarkana to take on the Washington High Lions in what should be a rugged contest.

The Tigers have come along slowly this season but are now showing signs of vast improvement. The Hope boys have been the doormats of teams played so far this season.

Last week the local boys gave Hot Springs a rugged battle before going down 16 to 6. But it was a vastly improved Yerger team that showed its willingness to carry the fight to its opponents only to be outmaneuvered.

Doing exceptional offensive jobs for the Tigers are Phillips, Wilton, Easter, Williams, Criner, Yerger, Trotter and Duffie.

The defensive mainstays are proving to be Gully, Sullivan, Dillard, Huntley, Edwards, Colbert and Sampson.

Thinks Hogs Will Come Through

By WICK TEMPLE

Associated Press Sports Writer

If the Arkansas Razorbacks operate against Baylor Saturday night like they did against Texas Christian last week, they'll win despite Ronnie Bull's heroics.

It they don't play the same kind of football...

That's the simple equation the Hogs will have in their heads when they take the field against the Bears. They remember the whipping Baylor administered in Fayetteville last year, just because they were ready and Arkansas wasn't.

This time, Baylor has had a week off to get ready. Baylor is going to be the favorite with the people who make the favorites but we're picking Arkansas on a hunch that the enthusiasm won't fade.

Here's the week's outlook: Arkansas 14, Baylor 13. On the good foot. And, in all fairness, it's picking an upset because Baylor has the psychological weight, etc., advantages. Betting on a double-buckle job from McKinney and Moore.

Mississippi State 27, Arkansas State 6. Mississippi State will remember that close call against the Indians last year and be out to cement it from the opening gun.

State Teachers 20, Harding 0. Harding has pulled two surprises in two weeks—over Southern State and Ouachita. But Frank Koon won't be caught napping.

Southern State 13, Henderson 7. Southern played so well against defending champion Tech that it must be the favorite.

Ouachita 6, Arkansas A&M 0. A suicide pick. And a tossup.

Livingston, Ala. 12, Ozarks 7. This is Ozarks' best chance of the year to win one. But...

Wants Sentence Set Aside

SPOTSYLVANIA, Va. (AP) — Defense attorneys for convicted murderer Melvin Davis Rees Jr. listed nine reasons Wednesday for vacating a death verdict returned by a Spotsylvania County Circuit Court jury.

Judge John D. Butzner Jr. will hear arguments on the defense motion Jan. 4.

Rees, 32, a Hyattsville, Md., dance band musician, who was arrested last year at West Memphis, Ark., was convicted Sept. 20 at the end of a nine-day trial for the murder of Carroll V. Jackson Jr. in early 1959. Police also accuse Rees of the kidnap-slays of Jackson's wife and two daughters.

Rees is also under federal sentence to life prison terms for the kidnap-murders of Jackson's wife and older daughter, and Prince Georges County, Md., wants to try him on charges of slaying two teenage girls there in 1955.

A 50-YARD PROPOSITION—Some 55,000 football fans had "50-yard line seats" for the Purdue-Washington game in Seattle. No one could complain about the seating arrangement until the start of the engagement when the "50-yard" markers were replaced by the usual numbers. For a while, though, the numbers had folks a bit bewildered.

Should Co. Managers Own Stock

AP Business News Analyst

NEW YORK (AP) — Is a company better managed if its officers lay their own money on the line by owning stock in it?

That is a favorite topic raised by stockholders at annual meetings. It also presumably is discussed at some board of directors meetings. Stock traders also keep an eye on sales or new purchases by management, regarding it as a possible sign of how much confidence they may have in the company's future.

In practice, ownership of their own company's stock by executives runs all the way from none to 85 per cent or more. Changes in such ownership through sale or purchase are reported by listed companies to stock exchanges and government regulatory agencies.

The point that non-management stockholders raise the most is: Officers and directors should own some stock because that insures they'll take a more personal interest in its affairs.

Defenders of small stock holdings by management, or none at all, usually cite: Officers and directors should be named for what they can do for the firm, without regard to the extra incentive of personal gain.

The gain could come through increased dividends, which as directors they might vote; or increased market price of shares, which as insiders they may be in position to influence.

To see how much management holdings come to in companies, the Big Board the New York Stock Exchange turned to Standard & Poor's Listed Stock Reports. A sampling of 245 listed companies, about one-fourth of all companies whose shares are traded on the exchange, shows:

Management owns 50 per cent or more of the stock in 35 of the companies. The largest share was 85 per cent in MCA, Inc., which among other things produces TV series.

In 25 other companies the management ownership is from 40 through 49 per cent; in 40 it is 30 to 39 per cent; in 57 companies 20 to 29 per cent; in 76 the range is 10 to 19 per cent; and in remaining 12 less than 10 per cent.

The sampling contains no companies without any management share ownership.

Percentage of management share ownership can be affected by many other things than confidence in, or personal interest in, the company itself. The Exchange magazine notes that an executive may own a large block of stock in a giant corporation and still be a relatively small holder, percentage-wise.

Thus in large companies with huge amounts of outstanding stock, the total of management's ownership may come to a tidy dollar figure, although the percentage seems small.

The Exchange also notes that changes in percentage of ownership may occur for other reasons than evaluations of the company's future. It cites as an example:

"In the case of older companies Oct. 5, 12, 1961

Governor Takes Job at Fulbright

MEMPHIS (AP)—Gov. Orval E. Faubus of Arkansas took a verbal jab here Wednesday at a man who may be a political opponent next summer — Sen. J. William Fulbright, D-Ark.

Addressing a convention of the Southern Paint and Wall Covering Dealers Association, Faubus said, "Some senator said the other day that the reason we've had so much trouble with Cuba is that we didn't treat them well enough."

"For years we paid a premium for Cuban sugar at the expense of Louisiana cane growers and western beet producers. Now the apple-brained visionaries come and say, 'Well, we didn't treat them right and that's why they're bad boys.'"

Faubus didn't name the senator, but Fulbright, in a speech at Little Rock, Monday, said the United States erred in not trying to improve economic conditions of Cuba's poor during the year's it dominated the island.

Fulbright is up for re-election next year and Faubus is a frequently mentioned potential opponent.

which might at one time have been family controlled, ownership may have become more widespread over the years."

But in the 245 companies it studied, management ownership of thirds or more includes: Getty Oil, Northwestern Steel & Wire, The Great Atlantic & Pacific Tea Co., Hershey Chocolate, Lykes Bros. Steamship, Transiltron Electronics, Weibull Corp., and the Cuno Press.

And the 12 with ownership under 10 per cent include: Wilson-Jones, Dover Corp., Gulf Oil, Continental Copper & Steel Industries, Textron, Tung-Sol Electric, Van Ral-Stock Exchange turned to Standard & Poor's Listed Stock Reports. A sampling of 245 listed companies, about one-fourth of all companies whose shares are traded on the exchange, shows:

Statistics on District 4-AA Grid Teams

Two Division 4AA teams suffered their first defeat of the season and another registered their first win. The Smackover Buckaroos and Malvern Leopards found themselves on the short end of the score for the first time, and the Hope Bobcats finally got their offense into gear and racked up their first win.

The Smackover loss to Homer, La., was non-conference, but Malvern's loss to Camden, coupled with a previous tie, put them almost out of the running for

Pecans Gain Importance as Cash Crop

Pecans are gaining new popularity as a cash crop among Arkansas cotton and rice farmers who have watched their cotton and rice acreage decline, reports the County Agent, Calvin Caldwell.

"An interesting outlook is offered by many of the folks planting pecans now. They figure that their trees will bring in a tidy retirement income—sort of a pecan plan pension," says Mr. Caldwell.

Interested pecan planters,

the time is fast approaching for setting new pecan trees.

December, January and February are considered the best times of the year for transplanting. Last year the nurseries sold out early so if you plan to set pecan trees this year, it would be advisable to place your orders now or you may have to wait another year.

Tree sizes: It is more satisfactory to buy small trees. A one year old tree or a two or three year old understock will live better, cost less and does not involve as much labor in transplanting as larger trees.

Spacing: In deep river bottom soils, a wide spacing is advisable, of 90 to 95 feet may be advisable for the final stand of trees.

Varieties: In these areas where

improved varieties are used (pawshell) many people prefer the Stuart. However, pure stands of any variety should be avoided. Interplant with some other variety to insure good pollination. Approximately 10 per cent of the stand should be made up of some other variety, such as Desirable, Money-maker or Success (each 10th tree or 10th row). When only one variety is planted, the pollen has a tendency to deplete before or after the female flower is receptive.

The Rio Grande has been the southern boundary of Texas since the treaty of Guadalupe Hidalgo between the United States and Mexico concluded in 1848.

Has Bone to Pick With Mothers

By JOY MILLER
NEW YORK (AP) — Bonnie Prudden has a bone to pick with mothers.

She thinks maybe they're not helping their families become as physically fit as they are themselves. "Mothers can go all the way down and touch their toes; boys of 14 can't."

This is not to say all American housewives could try out tomorrow for the Olympics. It's just that they can be put into condition faster than the children, they tell: "No, you can't visit Johnny. He lives four blocks away and I don't have the car."

"Adults 40, 50, 60 years old—they had paper routes as kids, played outdoors until suppertime—I can get back in shape in from four to six weeks," says the lithe, brunette expert on physical fitness. "With teen-agers it takes two years. Why, high school girls in Rye, N.Y., had a worse failure rate in fitness tests than the little old ladies in a retirement home."

"Do you realize that in 1955 our 6-year-olds had a 54 per cent failure, compared with 4 per cent in Europe? And today it's 82 per cent failure?"

It was in 1955 Bonnie set up pilot studies on fitness. Her report a real shocker, was taken to President Eisenhower and led to formation of the President's Council for Physical Fitness.

Since our youth's state of vigor seems to be steadily deteriorating, Bonnie thinks President Kennedy should step in and spell out a program in precise detail: each 11-year-old boy must chin himself three times a day, and so forth. "We can't leave interpretation of how to achieve fitness to the people who've brought us where we are," she insists.

Where are we? Ninety-one per cent of our elementary schools, says Bonnie, don't have gym at all. Of the 9 per cent that do, physical exercises are done for 6½ minutes twice a week.

"If youngsters are given an exciting program they'd like gym," she promises. "But it should be fitted to the American temperament that likes excitement, rhythm, change. Exercise should be changed every 15 seconds. Swedish gymnastics or German-type exercises that you do over and over again won't work with us."

How did her interest in fitness start? "I was a discontented housewife who noticed how soft my two little girls were getting. I started exercise classes for them, and lost 15 pounds myself in the first two weeks."

The classes soon embraced the neighborhood and blossomed into a fulltime career, with a fitness institute, lectures and books—the latest "How to Keep Slender and Fit After Thirty" is just published.

Says Youth Is Future of U. S.

LITTLE ROCK (AP)—Rep. Dale Alford, D-Ark., said Tuesday night that the future of the United States depends on the future generation and children must be educated by parents and teachers who understand the real meaning of Americanism.

The congressman, addressing

Quick Nutritious Luncheon

Unexpected luncheon guests or school children would be delighted with Spinach Ryan. Canned spinach is dressed up with a sunbonnet egg hat and Parmesan cheese. Pickles 'N' Beets are an especially good accompaniment to this quick nutritious dish. For an appetizing luncheon add browned canned Vienna sausage, buttered hominy, hot biscuits and honey. For dessert serve either sherbet or canned fruit and cookies.

Spinach Ryan
1 can (15 oz.) spinach
1 cup rich cream sauce
4 eggs
Salt and pepper
Grated Parmesan cheese

Combine drained spinach and cream sauce. Put into 4 individual casseroles and make a nest of the spinach using the back of a spoon. Put an egg in each nest and sprinkle with salt, pepper and cheese. Bake in a moderate oven (350 degrees) about 20 minutes, until egg is done. Four servings.

Pickles 'N' Beets
1 jar (12 oz.) cucumber
bread and butter pickles
1 can (1 lb.) sliced beets

Pour vinegar drained from pickles over drained beets. Cover and chill overnight. Add pickles before serving. Makes about 1½ pints.

Thinks Small Storms Can Be Controlled

WASHINGTON (AP) — The Weather Bureau is going to study the possibility of using conventional or nuclear bombs to smash hurricanes.

The idea of using bombs of any type against storms "is still only in the gleam-in-the-eye stage," says Dr. Francis B. Reichelderfer, Weather Bureau chief.

Reichelderfer stressed that in addition to a lot of thought and study, any use of a nuclear device would require a national policy decision regarding nuclear tests in the atmosphere.

He told newsmen after an appearance at the National Press Club that specially designed "TNT" bombs might be tested on a hurricane within two or three years. Asked about a nuclear bomb, Reichelderfer said a one megaton bomb—equal to one million tons of TNT—might do something to a hurricane, but he wasn't sure if it would be good or bad.

He said it is possible a nuclear bomb "might put too much force in one place" while conventional TNT charges placed in several parts of a storm would weaken or divert it.

Reichelderfer also said cost is a factor, stating that a one megaton bomb costs \$1 million. This is the first figure given by a government official on cost of a hydrogen bomb.

He said large-scale seeding of hurricane centers with silver iodide crystals is planned in 1962 based on small tests carried out this year.

The Mabelvale Dad's Club, praised parents and teachers who are assisting in "the great awakening to the tactics of atheistic, socialistic Communists."

Stock Market Is Irregular

NEW YORK (AP)—The stock market showed cautious irregularity early this afternoon as uncertainties continued in the labor picture and on the international front. Trading was moderate.

The Associated Press average of 60 stocks at noon was up a minimum .10 at 258.50 with industrial unchanged, rails up .20 and utilities unchanged.

The Ford strike dragged into its second week and Ford stock was weak, adversely affecting others in its group.

The buildup in Communist military forces in "maneuvers" of the Warsaw Pact powers near West Germany's border was a disquieting influence as diplomacy remained stalled on the Berlin crisis.

Changes of most key stocks were small and there was some strong action by selected issues not represented in market averages. On balance, blue chips remained fairly steady although there was a casualty here and there.

The Dow Jones industrial average at noon was off .53 at 706.14. Prices on the American Stock Exchange were generally higher in moderate trading.

Corporate bonds advanced. U.S. government bonds showed signs of steadying after a series of declines.

Officer Suspended

HOPE SPRINGS, Ark. (AP) — The Hot Springs Civil Service Commission suspended policeman Homer Hale for 30 days Tuesday and ordered him to take a physical examination. An assault charge against Hale in connection with an attack of Bill Moody, 41, of Little Rock, was dropped in Municipal Court Monday.

Appendicitis is said to be much more common among civilized people than primitive people.

Bokas Gave Scarbeck a Present

By GEORGE GOULD

WASHINGTON (AP) — Former diplomat Irvin C. Scarbeck was given a decoder and six glasses as a going away present by Polish agents here, it is charged by the FBI. Scarbeck, 41, is accused of furnishing with secret U.S. documents, says an FBI agent.

The agent, Patrick M. Rice, was over much of the same ground Tuesday that was testified to previously — that Scarbeck, 41, was surprised by Polish agents in bed with his mistress, Ursula Discher, 22, and that he was blackmailed into turning over embassy secrets to the Communists.

This was the third account of confessions Scarbeck allegedly gave to State Department security agents and FBI men. Defense Counsel Samuel Klein is objecting to admitting any of the statements. The argument is being heard without a jury until Judge Leonard Walsh rules on the point.

Scarbeck, former second secretary of the U.S. Embassy in Warsaw, is being tried on charges of giving four classified papers to Polish agents.

Klein said he plans to put Scarbeck on the stand before argument is completed on whether the alleged confessions can be admitted into evidence.

Rice's account of what he said Scarbeck told him June 7, 8 and 9 in Washington included a description of how Scarbeck became involved with Miss Discher.

On Sept. 4, 1959, the day he packed off his German-born wife and their children for a visit at

her parents' home in Germany, Miss Discher called the embassy about a job, Rice said.

Scarbeck answered and told her he was "intrigued by her voice." He made an immediate date. After a few more dates, he persuaded her to drive with him as far as the Polish border on his way to Germany to bring back his wife and family. On the way he made advances and "she acquiesced," and they did have intimate relations.

Rice said Scarbeck told him that he soon was seeing Miss Discher nightly and had intimate relations with her on an average of once a night for a period of six months.

On the night of Dec. 22, 1960, in Warsaw Polish agents burst into the girl's room and photographed the pair in bed.

The agents threatened, according to the testimony, to take action against both of them if Scarbeck didn't give them secret information.

Among the threats they made was that they would put Miss Discher in a prison "where she would be subject to particular indignities — made available to soldiers and the like," testified State Department security officer Charles W. Lyons.

Something Brews Against Cuban Ruler

By THEODORE A. EDIGER

MIAMI, Fla. (AP) — Cuban exiles and Florida authorities generally expressed skepticism today that large-scale training for a Cuban invasion is under way in the state, as charged by Fidel Castro's government.

But the feeling persisted among exiles that something is brewing against Castro. No one would say just what.

Sheriff Thomas J. Kelly of Dade County said no anti-Castro training is in progress in this area.

Broward County authorities denied there were such activities in the Fort Lauderdale area, and said they knew also there were none at nearby West Palm Beach.

Some 40 or 50 young anti-Castro Americans training at Fort Lauderdale west of Fort Lauderdale were ordered away by Broward County authorities three months ago. Their head, Jerry Patrick, an ex-Marine, born in Los Angeles, said the group would continue training in the Florida Everglades.

Everglades areas were not mentioned in Castro's pinpointing of training sites.

Some observers felt the Castro regime was merely recounting places where troops trained for the unsuccessful April invasion.

But one exile commented: "It's probably true. Castro usually finds out about such things before we do."

In Monroe County, which includes the Florida Keys, Sheriff John M. Spottswood said flatly

Kitchen Idea File: EFFICIENT USE OF CORNER SPACE

Feel your kitchen is too small? Perhaps you're wasting precious space in those corners. Here are some suggestions for practical and efficient layout of a kitchen corner... to help you utilize space you never thought you had!

First, place the storage cabinets at an angle where the walls form a corner. This makes them easier to reach, gives you extra storage room to boot.

Next, install the Caloric countertop gas range and automatic ventilating hood in the same corner.

The range is set at the same angle as the cabinets with room behind it for canisters of flour, sugar, coffee, and other frequently-used kitchen supplies.

The ventilating hood, attached to the underside of the cabinets, keeps kitchen air fresh and protects the wood finishes above the range, saving not only space, but clean-up time after cooking.

In addition to being compact and convenient, your new corner layout will give the whole kitchen an attractive, re-modeled look.

Thinks Feed Grain Plan Successful

WASHINGTON (AP) — The Kennedy administration claimed success today for its program designed to reduce costly surpluses of livestock feed grains.

This claim was made by Under Secretary of Agriculture Charles S. Murphy on the basis of the Agriculture Department crop report issued late Tuesday and Murphy's estimate of what production of these grains would have been without the plan.

But the claims are likely to be challenged by critics of the program.

Under the program, farmers will be paid about \$78 million for reducing acreages of corn and sorghum grain. They also were offered higher price supports than last year.

The crop report estimated corn

production of corn and sorghum grain at 4,008,000,000 bushels compared with 4,499,000,000 last year. Farmers reduced acreages of these crops about 2 percent, but production apparently will be down only about 11 percent.

Murphy said in a statement that without the program the combined production of these two grains would be about 4.9 billion bushels. Thus, he said, the program brought about a downward adjustment of 892 million bushels from the amount he said would have been produced without the program.

Murphy's estimate assumes that the yield per acre on the retired land would have been about the same as that kept in production. But previous crop control programs have shown that farmers take only their poorest land out of production.

As estimates of production and probable use now stand, the feed grain production may fall 15 million bushels below needs. This deficit would be taken from record large supplies accumulated from past crops.

Earlier this year, officials had expressed hope the program would reduce the surplus considerably more than 150 million bushels. Murphy said that on the basis of his estimate of what production would have been without it, the program will save tax payers more than \$500 million dollars above its cost.

Has Pneumonia

MADRID (AP) — U.S. Ambassador Anthony J. Drexel Biddle, ill with pneumonia since late September, has been moved from his residence to the U.S. Air Force hospital at Torrejon near Madrid.

Visiting in U. S.

PARIS (AP) — Shah Mohammad Reza Pahlavi and Empress Farah of Iran arrived today for a three-day state visit to Paris.

Successor to UN Secretary Is Snagged

By TOM HOGE

UNITED NATIONS, N.Y. (AP) — U.S.-Soviet negotiations on a successor to the late U.N. Secretary General Dag Hammarskjold were reported snagged today on the timing of a statement to be given by the nominee and the nationality of a fifth secretariat deputy.

A U.S. spokesman said a two-hour bargaining session with the Soviets Tuesday failed to produce any agreement. "We made no progress. We are disappointed," he said.

Soviet Deputy Foreign Minister Valerian A. Zorin claimed the Americans "took a step backward" in discussion of when the new interim secretary-general should make a statement promising close collaboration with his deputies in his daily work.

The proposed statement is a modification of the original Soviet demand that deputies representing the world's major political groupings have a virtual veto over the secretary-general's actions. The Soviets want the statement promising collaboration delivered before the nominee's name is proposed to the Security Council, which must make the nomination to the General Assembly.

Zorin said the U.S. delegation Monday "handed us a memorandum saying the nominee should make a statement before his appointment." Tuesday he said, "they said he should make it afterward."

According to informed sources, the Americans said that due to a typist's error their statement originally contained the clause that the nominee would promise collaboration "if appointed to this post."

The informants said the Soviets had dropped their demand for appointment of only three principal advisers to the secretary-general — from the Western, Communist and neutralist blocs — and agreed with the United States on five.

But a second standoff reportedly developed over the fifth deputy, with the Soviets wanting an East European and the Americans a West European. Both sides, it was said, agreed the other four should come from the United States, the Soviet Union, Latin America and Africa.

island group west of Key West. The Castro government charge that Ft. Bragg, N.C., is involved in the invasion training was denied by a spokesman for that Army post.

At Norfolk, Va., Navy and Marine spokesmen said they had heard nothing of any invasion training activity there.

Recruiting of anti-Castro men has been going on in the Norfolk area for some time.

Jim Ore, 38, an ex-Marine of Norfolk, has been engaged in anti-Castro activity for more than a year. He said today, however, he was unable to comment "at this time."

Ore, the husband of a Cuban girl, trained for a year in the Florida swamps with Cuban refugees and others interested in the overthrow of Castro.

Fort Worth, Tex., police officials also denied any knowledge of training of troops there for a Cuban invasion.

Guide Stations

WASHINGTON (AP) — The Federal Aviation Agency said Tuesday it would place aircraft guide stations at the Fayetteville and Harrison, Ark., airports. The FAA ordered 71 high frequency signal direction radio range finds from the Television Corp., of Wheeling, Ill., for \$2,067,550.

Calorie-Shy Salad Uses Fall Apples

Colorful salad for an autumn table combines unpeeled red apples and grapefruit sections in a sweet yet tangy gelatin mold.

In the interest of weight-watchers, this appealing salad has been calorie-streamlined to just one-third its usual calorie count. The secret is the use of the non-calorie sweetener, Sucaryl, rather than sugar. Each serving of this calorie-shy salad contains only 69 calories as compared with 198 calories when sweetened in the ordinary fashion.

Best part is, non-dieters in your family will appreciate the salad's sweet, natural-tasting goodness every bit as much as the dieters. So do try this good and low-calorie recipe:

Jellied Apple-Grapefruit Salad (Low-Calorie)

2 tablespoons (or envelopes) unflavored gelatin
1/4 cup lemon juice
1 cup boiling water
2 tablespoons Sucaryl solution

1 1-pound can unsweetened grapefruit sections
2 cups diced, unpeeled red apples

Soften gelatin in lemon juice; add boiling water, stirring to dissolve. Add Sucaryl. Drain grapefruit; measure liquid, adding water to make 2 cups liquid. Add to lemon gelatin; chill until mixture begins to thicken. Fold in grapefruit sections and diced apples. Pour into a lightly oiled 5-cup mold; chill until set. Unmold at serving time on salad greens.

Makes 6 servings. Each serving contains 69 Calories; 3.5 grams protein; trace of fat; 14 grams carbohydrate. If made with sugar, each serving would contain 198 Calories.

Hot Race in President's Home State

By JACK BELL

WASHINGTON (AP) — President Kennedy's home state of Massachusetts will have one of 1962's liveliest Senate races if Henry Cabot Lodge—who says he can't be drafted—ends up a candidate for the Republican nomination.

An effort to bring Lodge, the 1960 GOP vice presidential nominee, into the race was launched Tuesday by a group headed by Paul Vaites Jr., a Boston attorney.

Lodge promptly told newsmen "I cannot be drafted. No attempt to draft me has my approval."

The former U.S. ambassador to the United Nations now is associated with Time, Life and Fortune magazines as an adviser on international affairs. He lost his Senate seat to Kennedy in 1962.

Vaites said later he wasn't surprised at Lodge's reaction. He said the Draft Lodge Committee will meet soon to see what to do next.

Should Lodge end up making the Senate race, he would be joining Richard M. Nixon, former vice president and the 1960 GOP presidential nominee, in trying for a comeback at the polls.

Nixon is seeking the California governorship.

The Draft Lodge group would have no assurance, of course, that he could have the Republican nomination. That might depend on whether GOP Gov. John A. Volpe wants another term in the statehouse or would like to try for the Senate.

Volpe demonstrated his pulling power in winning in 1960 by a margin of 138,000 votes while Kennedy was carrying the state by more than a half million.

National headquarters Republicans think they would have a strong candidate in either Volpe

Space Trips Sure to Be Very Costly

By ALTON BLAKESLEE
Associated Press Science Writer

NEW YORK (AP)—If your children are eager to go rocketing into space, tell them to start saving their money.

Commercial manned space flights could be a reality by 1975-80, a space researcher predicted today.

Space transportation techniques are expected to develop rapidly in the next 20 years, greatly reducing the cost of a round-trip from earth into an orbit, or to the moon, said H. H. Koelle of the George E. Marshall Space Flight Center at Huntsville, Ala.

This could be the timetable. Koelle told the space flight report to the nation sponsored by the American Rocket Society:

Large, orbiting space stations carrying men in 1968-69. A permanent, manned station on the moon, 1970. A lunar settlement by 1975. Manned expeditions to other planets starting in the 1972-74 period.

Round-trips from earth to low latitude orbits involving 5,000 men every year by 1975. Several men would be involved in each trip. About 500 annual man round-trips from earth to moon by 1975. Commercial manned space flights developing in the 1975-80 period.

"It will be witnessed by the middle-aged generation of today, with the younger generation of today taking an active part in it," Koelle suggested.

His prepared paper did not estimate the cost of the round-trip ticket into orbital flight or to the moon.

or Lodge. They look with some glee on what they believe is a developing cleavage among Massachusetts Democrats.

A New Trick With Chocolate Icebox Cake

MOST EVERY SMART HOMEMAKER has a bag of tricks up her sleeve—a few short cuts to good eating—recipes so delicious and so glamorous as to be unrecognizable as short cuts. Here's one that is sure to be a welcome addition—a graham cracker and chocolate refrigerator cake. Sweet cooking chocolate, the delicious secret of so many famous Continental desserts, is used for the filling.

GRAHAM CRACKER REFRIGERATOR CAKE

1 package (1/4 pound) sweet cooking chocolate
1 tablespoon water

Dash of salt
2 egg yolks
1 cup whipping cream
12 double graham crackers

Melt chocolate in water in saucepan over low heat, stirring constantly. Add salt. Then add egg yolks, one at a time, beating well after each. Cool. Meanwhile, whip cream. Then fold a little of the whipped cream into chocolate mixture. Blend well. Fold in remaining cream, blending well. Chill.

Spread double graham crackers with chilled chocolate mixture and layer 6 together in a loaf; repeat, making 2 loaves. Cover top and sides with remaining chocolate mixture. Chill 8 to 12 hours in refrigerator. Serve in slices. Makes 8 servings.

More U.S. Troops to Europe Likely

WASHINGTON (AP) — Deployment of more U.S. forces, probably of moderate size, to Europe was reported today to be imminent.

Speculation was that the total of manpower involved might be something over 2,000, including some tactical air as well as ground forces.

The units presumably would be in addition to the program for adding 40,000 men to fill out under-strength elements and otherwise increase the fighting capability of the U.S. 7th Army. Asst. Secretary of Defense Carlisle Runge said in a speech last week that the 40,000-man augmentation would be completed by Nov. 1.

Reports of the manpower involved in the new deployment suggested that total Army strength would be larger than a

battle group, which consists of about 1,200 men. That left the possibility that the new deployment might involve a battle group with additional attached units or separate units to back up division-size elements already in Europe.

Under the over-all military buildup, the augmentation of ground forces is being matched, in some proportion by more airpower to provide cover and support for infantry.

There was no immediate information on whether units going overseas would be regular or reserve outfits, although the possibility seemed to point to regular Army elements.

In his speech to the National Guard Association, Runge noted the 40,000-man augmentation is intended only to bring the 7th Army up to combat efficiency.

Of the 40,000, about 3,000 are to help in conversion of three divisions to mechanized outfits; 17,000 are to fill out manpower strength, and 20,000 are for combat support and supply assignments.

The 7th Army now has five divisions and other combat units

Reds Cause 32 Indian Deaths

NEW DELHI, India (AP)—The home minister of India's largest state hinted Tuesday that the Hindu-Muslim riots, that caused 32 deaths there were Communist-inspired.

Charan Singh said the manner in which the disorders spread throughout Uttar Pradesh State "leads one to suspect there is a conspiracy behind these incidents."

He would single out no faction but said that students who rioted at Aligarh Muslim University looted every bookstore in the town except one offering Communist literature.

equivalent to a sixth division. Total U.S. Army manpower in West Germany is about 250,000.

Under the policy of President Kennedy the emphasis so far has been almost entirely on adding conventional fire power strength for both ground and tactical air units.

Price Raps Films Sent Overseas

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP) — Vincent Price is back from six months of European film making with an alarming view of how foreigners judge us by our movies.

Says Price: "Whatever good will Americans have engendered over the years is virtually wiped out by the kind of picture we are sending to Europe nowadays. We used to give them entertainment. Now we send them problems."

"They don't need problems; they've got enough of their own. We are giving them a set of Tennessee Williams' view of America. This is not America as all of us know it."

"But Europeans don't know it because they judge us by our movies. I had people over there ask me if the United States was undergoing a bad depression picture of contemporary America."

They had gathered so because of air downtown pictures. It was all I could do to try to convince them that we are more prosperous than ever.

"What has happened to the glamour movies Hollywood used to make, especially at MGM? They may have been somewhat fanciful, but they were closer to reality than today's downtown films."

"And they did a better job for us. In those days, every European wanted to come to America. Now they don't."

Price's sentiments coincide with what I encountered on journeys to the Orient and Europe this year. There was polemic and distortion over the portrait of America in such films as "I Want to Live," "Butterfield 8," "Inherit the Wind," "Elmer Gantry," "The Fugitive Kind," "The Apartment," etc.

"The ideal picture for us to send abroad is 'Oklahoma!' Price remarked. "It is cheerful and beautiful and vastly entertaining. True, it doesn't show a picture of contemporary America, but you also judge a nation by its art."

"What we know of ancient Egypt comes from its architecture, its art and its writing. A great deal of how foreigners consider us stems from what kind of art we send them. 'Oklahoma!' is a wonderful example of basic, fully American art form."

Controls for Turkey Production

WASHINGTON (AP)—The agriculture department has taken steps toward possible control of turkey production to improve grower prices and returns.

Undersecretary of Agriculture Charles S. Murphy has appointed an industry committee to advise his department on plans to manage production.

New farm legislation enacted this year authorizes the establishment of a federal marketing order to regulate hatching and marketing of turkeys.

This year's record crop—26 per cent above last year—has brought a sharp decline in producer prices.
